Adam Munir

UX Designer & Design Engineer

adam@themunir.com · 562-665-2310 · Orange, CA
linkedin.com/in/adammunirr · themunir.com

Product designer and design engineer with 9+ years shipping AI-enabled, hardware-connected, and enterprise SaaS products across irrigation, IoT, fintech, streaming, and logistics. I lead the research, design the system, and then build what I design, front end and back end. Co-inventor on a granted US patent.

EXPERIENCE

The Toro Company · Senior Product Designer — Apr 2022 – Present
Irrigation software for golf, commercial, and residential customers — Riverside, CA

- Lead UX research and design for Toro's irrigation platforms across web, native mobile, and connected hardware, used by **5,000+ daily professional users** and **~400k homeowners**.
- Raised controller setup success from **64% to 87%** and cut first-time setup time **41%** by redesigning onboarding.
- Cut design-to-dev cycles **32%** and engineering rework **27%** with a modular design system adopted by **8 product teams**.
- Designed human-in-the-loop UX for AI irrigation recommendations: reasoning and confidence up front, with clear overrides.
- Build what I design, front end and APIs, shipping at **under 1% pixel difference** from the design.
- Raised weekly validated concepts **2.5x** with AI-assisted research and prototyping workflows, keeping handoff precise.
- Co-invented in-field smart notes, shipped in Toro Lynx: **US Patent 12,543,671 B2** (granted 2026), with a continuation pending.

Products: Lynx · Oasis · iCentral · Spatial Adjust · Helix · Toro Pipeline · Precision ET

Vision247 · Senior UI/UX Designer — Oct 2020 – Apr 2022
OneHubTV, an OTT streaming service across web, mobile, and TV — London, UK

- Lifted trial-to-paid conversion **21%** and cut checkout drop-off **28%** by redesigning onboarding and subscription purchase.
- Cut account support tickets **24%** and raised self-serve task completion from **63% to 89%** by simplifying multi-device sign-in.
- Cut design and build time for new features **30%** across web and mobile teams with a reusable design system.

HyperJar · Lead Product Designer — Nov 2019 – Sep 2020
Consumer fintech: budgeting, savings automation, cards, and spending controls — London, UK

- Led product design for **150,000+ active customers** across budgeting, savings, cards, and spending controls.
- Raised budgeting engagement **21%** and savings activation **17%** by redesigning transaction categorization.
- Raised verified account completion **19%** by simplifying setup and identity verification.

FSCOCEANS · Product Designer — Jan 2019 – Nov 2019
Internal freight pricing and sales platform, integrated with Salesforce — London, UK

- Cut average quote turnaround **52%** with a unified quoting engine and pricing calculator for commercial teams.
- Raised sales task completion **34%** in testing and cut onboarding and training needs **28%** with task-focused dashboards.
- Led discovery, UX and UI, and front-end delivery support for the MVP, with engineering on the data model.

Geoff Banks · Product Designer — Dec 2016 – Sep 2017
Racecourse website and mobile experience — Ascot, UK

- Lifted ticket conversion **~28%** and cut bounce rate **~22%** by rebuilding the site for **10k+ monthly visitors** at peak.
- Cut manual odds update time **~80%** by automating racing odds ingestion and content workflows.

SKILLS

Design	Product and interaction design, design systems, information architecture, data visualization, accessibility (WCAG)
Research	User research, usability testing, prototyping, discovery, product measurement and experimentation
AI	AI UX, agentic UI patterns, explainability, human-in-the-loop review, trust interfaces for machine learning
Build	TypeScript, JavaScript, HTML, CSS, Next.js, native iOS and Android UX, Git and GitHub
Tools	Figma, ProtoPie, Rive, Jitter, Spline, Adobe Creative Suite

EDUCATION

Certificate, UI/UX Design for AI Products · Stanford University · 2026
MBA, Business Administration and IT · Westcliff University · 2020
BSc Economics · University of Plymouth · 2016

PATENTS

US Patent 12,543,671 B2 · Granted 2026
US 2026/0137039 A1 · Pending
Smart notes for an irrigation control system
